ePoster List

**ePosters are on display on the ground floor throughout the Conference.**

**P1**
*Role of anterior cut and femoral component position for the onset of anterior knee pain in TKA*
Antinolfi P., Manfreda F., Ricchiuto I., Petruccelli R., Placella G., Innocenti B., Cerulli G., Caraffa A. (Italy)

**P2**
*Medial unicompartmental knee arthroplasty for avascular osteonecrosis*
Asparuhov A., Gerasimov I., Aysoy H., Kotzev S. (Bulgaria)

**P3**
*All-polyethylene tibial component in cemented Total Knee Arthroplasty - 16 to 18 years results*
Asparuhov A., Gerasimov I., Aysoy H., Lungarov S. (Bulgaria)

**P4**
*Features of arthroplasty of the knee joint with valgus deformation in patients with rheumatoid arthritis*
Babko A., Gerasymenko S., Avtomeyenko E. (Ukraine)

**P5**
*Survivorship of extensor mechanism allograft reconstruction after Total Knee Arthroplasty: Five years results*
Barrera Flores A., Ruiz Nieto B., Gago Baron M. (Spain)

**P6**
*How reliable is the contralateral knee in restoring coronal plane alignment in knee surgery?*
Beckers L., Colyn W., Bellemans J, Victor J., Vandekerckhove P.-J. (Belgium)

**P7**
*Knee arthroplasty system with medialized keel: Follow-up at 5 years of a pioneer cohort*
Benazzo F., Ghiara M., Rossi S.M.P. (Italy)

**P8**
*Robotic arm assisted Total Knee Arthroplasty: Valgus knee*
Bhowmik-Stoker M., Zhang J., Scholl L., Marchand R. (USA & UK)

**P9**
*Restoration of patellofemoral alignment and posterior condylar offset following robotic knee arthroplasty*
Bhowmik-Stoker M., Hampp E., Zarin J. (USA)

**P10**
*Rotating-Hinge revision Total Knee Arthroplasty for treatment of severe arthrofibrosis*
Bingham J.S., Bukowski B.R., Wyles C.C., Pareek A., Berry D.J., Abdel M.P (USA)
P11 Screening for periprosthetic joint infections with ESR and CRP: The ideal cutoffs
Bingham J., Scott K., Patel K., McQuivey K., Clarke H., Beauchamp C., Spangehl M. (USA)

P12 The LINK™ Hinge Total Knee Arthroplasty: Medium term outcomes
Blocker O., Searle D., Walmsley K., Eyres K., Toms A., Phillips J. (UK)

P13 Passive ligament tension in natural knee: 40-50 N are enough to achieve stability - A cadaveric biomechanical study
Bori E., Branni M.G., Paszicsnyek T., Innocenti B. (Belgium & Austria)

P14 Development of a validated virtual simulator for analyzing TKA performance
Bori E., Innocenti B. (Belgium)

P15 Does simultaneous Tourniquet inflation increase risks in bilateral Total Knee Arthroplasty?
Borzio R., Cizmic, Z., Long W.J. (USA)

P16 Cruciate retaining knee vs. medially stabilised – Is there a difference in Patient Reported Outcome Measures (PROMs)?
Brighton R.W. (Australia)

P17 Midterm outcomes of an oxidized zirconium femoral component for total knee replacement

P18 The knee alignment in hindfoot deformities assessed by weightbearing CT
Burssens A., Buedts K., Barg A., Demey P., Vluggen E., Saltzman C.L., Victor J. (Belgium & USA)

P19 Complex total knee replacement using PSI
Chemello C., Castiello G., Zaia A., Scalco E., Calzavara N., Costacurta G., Scalvi A. (Italy)

P20 Automatic quantitative assessment for patellofemoral joint within dynamic TT-TG distance of 4D CT data

P21 Sleep apnea increases 90-day complications and costs following revision Total Knee Arthroplasty
Cohen-Levy W., Vakharia, R., Vakharia, A., Leung, P., Roche M. (USA)

P22 Combined unicompartmental knee arthroplasty and anterior cruciate ligament reconstruction in knees with osteoarthritis and deficient anterior cruciate ligament
D’Amario F., Perico L., Laviano P., Neri M., Libroia M. (Italy)
P23
Indications for bi-cruciate retaining total knee replacement: Preliminary results of a survey of knee surgeons
De Faoite, D., Hanson B., Boese K. (Switzerland & Germany)

P24
The hindfoot alignment in Total Knee Arthroplasty: A systematic review
De Roos D., Burssens A., Barg A., Van den Bossche T., Pfeufer D., Saltzman C.L., Victor J. (Belgium, USA & Germany)

P25
Midterm outcomes of cementless Total Knee Arthroplasty with a posterior stabilized design
Eccles C., Meredith J., Harwin S., Bhowmik-Stoker M., Mont M., Smith L., Malkani A. (USA)

P26
Course of early postoperative pain: Is there a difference between cemented and cementless mobile bearing UKR?
Filippone L., Campi S., Tripodo A., Coari G.C. (Italy)

P27
A compartmental approach to revision of partial knee arthroplasty retains a functionally superior gait compared to primary Total Knee Arthroplasty
Garner A., Lambkin R., van Arkel R., Cobb J. (UK)

P28
Experience comparative of causes of Revision in Total Knee Arthroplasty (RTKA) using Endo-Modell® Hinge Knee Prosthesis
González Rouse S., Bello Prats S., Gil Garay E. (Spain)

P29
Combining multiple technologies to achieve optimized surgical outcome in Total Knee Arthroplasty
Gordon A.C., Goldstein J.M., Anderson C.A., Goldstein W.M. (USA)

P30
Pharmakinetics of high-dose Ropivacain for local infiltration anesthesia in unilateral and simultaneous bilateral Total Knee Arthroplasty

P31
A novel telehealth approach to wound care post knee replacement
Guo D.J.H., Tan G.P.K. (Singapore)

P32
The impact of workflow on cutting time for partial knee arthroplasty
Hampp E., Haque M., Wu C., Scholl L., Westrich G., Mont M. (USA)

P33
How much bone is resected in a partial knee compared to a total knee replacement? A computational robotic-assisted study
Hampp E., Chang T., Pearle A. (USA)
P34
Guided Motion Total Knee Arthroplasty System: Five-year outcomes of the prospective multicenter US study

P35
Guided Motion Total Knee Arthroplasty (TKA) System in younger patients has a lower revision rate than registry controls: Results from the international multicenter study with up to 6 Years follow-up
Harris A., O’Grady C., Sensiba P.R., Vandenneucker H., Cates H.E., Christen B., Hur J., Malcorps J., Kopjar B. (USA)

P36
Guided Motion Total Knee Arthroplasty (TKA) in patients with BMI of 40 kg/m2 or more: Results from the international multicenter study of 2,059 primary TKAs with up to 6 Years follow-up
Harris A., O’Grady C., Sensiba P.R., Vandenneucker H., Cates H.E., Christen B., Hur J., Malcorps J., Kopjar B. (USA)

P37
Clinical and functional outcomes of a second-generation Guided Motion Total Knee Arthroplasty System: Two-year results of a prospective multicenter study
Heir S., Catani F., van Hellemondt G., Victor J., Jansen E., Zambianchi F., Kopjar B. (The Netherlands, Belgium & USA)

P38
Effect of iodine impregnated incisional drape differs between males and females
Hesselvig A.B., Arpi M., Bjarnsholt T., Odgaard A. (Denmark)

P39
Soft-tissue balance in TKA: An objective robotic assessment
Holgate J., Al-Zibari M., Kader D. (UK)

P40
Over-cutting the tibia: A navigation pitfall in TKA and a solution we should all know about
Holgate J., Al-Zibari M., Kader D. (UK)

P41
Prognostic factors for return to sport after high tibial osteotomy – A directed acyclic graph approach

P42
Does exercise-based rehabilitation with goal attainment scaling increase physical activity among total and unicompartmental knee arthroplasty patients?

P43
Patellofemoral design enhancements reduce long-term complications of postero-stabilized TKA
Jan N., Saffarini M., Migaud H., Putman S. (France & Switzerland)

P44
Intraoperative contamination during primary knee arthroplasty does not affect patient reported outcomes in the first year after surgery
Justesen T., Olsen J.B., Hesselvig A.B., Mørup-Petersen A., Odgaard A. (Denmark)
P45
Initial safety profile assessment of the NAVIO robotic-assisted Total Knee Arthroplasty
Kaper B.P., Villa A. (USA)

P46
Accuracy and precision of a handheld robotic-guided distal femoral osteotomy in robotic-assisted Total Knee Arthroplasty
Kaper B.P., Villa A. (USA)

P47
Clinical results and survivorship of the Genesis II Total Knee Arthroplasty at a minimum of 10 years
Karaytug K., Dikmen G., Ozden V.E., Tozun R.I. (Turkey)

P48
The learning curve for robotic-arm assisted unicompartmental knee arthroplasty

P49
Robotic-arm assisted Total Knee Arthroplasty is associated with improved early functional recovery and reduced time to hospital discharge compared with conventional jig-based Total Knee Arthroplasty: A prospective cohort study
Kayani B., Konan S., Pietrzak J.R.T., Tahmassebi J., Haddad F.S. (UK)

P50
Primary patellar and quadriceps tendon repair using Poly-Tape
Khojaly R., El Mubarak A., Hassan M., Cogley D. (Ireland)

P51
Accuracy of intra-operative posterior cruciate kinematic assessment using robot assistance in Total Knee Arthroplasty
Kinsey T., Bhowmik-Stoker M., Mahoney O. (USA)

P52
Break-Pedal-Force and Break-Reaction-Time after TKA – Timeframe for return to car driving
Kirschbaum S., Otto M., Fuchs M., Pfitzenr T., Sentürk U., Perka C. (Germany)

P53
Knee arthroplasty hospital volume and availability of a proven unicompartmental knee prosthesis influence the use of unicompartmental knee arthroplasty

P54
Person-time Incidence Rate (PTIR) of revision is a biased measure of probability of revision for Total Knee Arthroplasty
Kopjar B. (USA)

P55
Mid term results of all poly vs metal backed cruciate sacrificing Total Knee Arthroplasty – An Indian experience
Kumar N. (India)

P56
Critical evaluation of the reference axes for femoral component rotation in Total Knee Arthroplasty
LiArno S., Jang E., Connors-Ehlert R., Cooper H.J., Geller J., Shah R. (USA)
P57
Total Knee Arthroplasty: Validating the benefits of patient-specific instrumentation
Linton K.N., Moore S., Martin P., Headon R.J., Mahmood T., Bennett D. (Ireland)

P58
Knee arthroplasty in the severe valgus knee – How far do we need to go to achieve balance?
Machado F., Silva E., Carvalho S., Lavareda G., Gonçalves F., Bispo A., Pessoa P. (Portugal)

P59
Primary knee arthroplasty after ipsilateral below knee amputation – Clinical case report
Machado F., Silva E., Carvalho S., Lavareda G., Gonçalves F., Bispo A., Pessoa P. (Portugal)

P60
Infected Total Knee Arthroplasty in the context of hypersensitivity to a cement component – Clinical case report
Machado F., Silva E., Carvalho S., Lavareda G., Gonçalves F., Bispo A., Pessoa P. (Portugal)

P61
Periprosthetic knee infection - Retrospective analysis of an orthopedic center
Machado F., Silva E., Carvalho S., Lavareda G., Gonçalves F., Bispo A., Pessoa P. (Portugal)

P62
Fixed-bearing UKA: Outcomes from a young patient cohort with mean 15 year follow up

P63
Quadricipital recovery after TKA by minimally invasive approach
Marchetti E., Combes A., Lomberget M. C, El Sair S., Favreul E., Badet R. (France)

P64
Over-voluming is observed in 24% of TKA
Marmor S., Renault E., Valluy J., Saffarini M. (France & Switzerland)

P65
Can we optimize patient status prior to revision knee arthroplasty to minimize surgical site infection? A review of the literature
Marta R., Moura J., Maia J., Costa J., Costa. D., Lourenço J. (Portugal)

P66
One stage vs two stage revision of infected knee arthroplasty: What’s the state-of-the-art?
Marta R., Moura J., Maia J., Costa J., Costa. D., Lourenço J. (Portugal)

P67
Outcomes and complications of medial unicompartmental arthroplasty - 4 years follow up
Milovanovic D., Stijak L., Raspopovic Dubljanin E., Kadija M. (Serbia)

P68
Complications related to the use of spacers in Revision Knee Arthroplasty: A Wrightington experience
Mohamed M.H., Krishnamurthy A.V., Jain M., Selvaratnam V., Pavlou G., Shah N. (UK)
P69
Balancing the valgus knee through an arcuate release
Moore R., Roche M.W., Ronning C., Verstraete M.A., Conditt M.A. (USA)

P70
Tibial overhang of TKR and mUKR, may increase risk of lower pressure pain thresholds in soft tissues surrounding the overhang
Mortensen J.F., Hald J., Odgaard A. (Denmark)

P71
Revision Total Knee Arthroplasty using a contemporary rotating hinged knee replacement - Early results with 2-5 year clinical and radiological review
Murray J.R., Bridgewater H., North D., Hassaballa M.A., Porteous A.J. (UK)

P72
Schatzker type II tibial plateau fracture treated as bone defect with condylar constrained Total Knee Arthroplasty
Natsioulas N., Papageorgiou F., Papoutsis K., Tsioros K. (Greece)

P73
Simultaneous bilateral high tibial osteotomy: Fast rehabilitation through immediate full weight-bearing
Neirynck J., Claes S., Van Den Bogaert G., Bartholomeeusen S., van Beek, N., Claes T. (Belgium)

P74
Comparison of implant survivability in Total Knee Arthroplasty among opioid abusers and non-opioid abusers: A retrospective analysis
Nelson S., Vakharia, R. Cohen-Levy W., Ameri B., Leung P., Roche M. (USA)

P75
Do Total Knee Arthroplasty surgical instruments influence clinical outcomes? A prospective parallel study of 150 patients
Nevelos J., Bhowmik-Stoker M., Faizan A., Tippett E., Clark G. (Australia)

P76
Clinical and functional outcome of the articulating cement spacer beyond 6 months, in two-stage revision Total Knee Arthroplasty

P77
Validation of KOGS (Knee Osteoarthritis Grading System)
Oosthuizen C.R. (South Africa)

P78
The results of Anterior Cruciate Ligament (ACL) reconstruction and Unicompartmental Knee Arthroplasty (UKA)
Oosthuizen C.R. (South Africa)

P79
Wear patterns of medial and lateral compartments in the knee
Oosthuizen C.R. (South Africa)
Influence of Total Knee Arthroplasty on bone metabolism
Papadimitriou E., Karachalios T. (Greece)

Treatment of tibial tubercle apophysitis (Osgood-Schlatter disease) in adolescent athletes with topical infiltration of platelet-rich plasma
Papadimitriou E., Karamanis E., Tolis K. (Greece)

Study of the effect of pulsed washing on antibiotic susceptibility of Staphylococcus aureus biofilms
Poilvache H., Ruiz-Sorribas A., Rodriguez-Villalobos H., Sakoulas G., Cornu O., Van Bambeke F. (Belgium & USA)

Static progressive stretch can improves range of motion in haemophilic patients after total knee replacement
Pompe B., Filipidis S., Dovč P., Bonutti P. (USA)

Outcomes of total knee replacement after tibial plateau fracture – A systematic review
Popat R., Adam A., Spicer D., Hanna S., Sarraf K.M. (UK)

Cemented or cementless Total Knee Arthroplasty: Comparative results of 200 cases at a minimum follow up of 11 years
Prudhon J.L., Verdier R. (France)

Functional results of treatment of intracondylar fractures of the distal femur in arthritic knees by a primary total knee replacement
Rajgopal A., Dahiya V. (India)

The use of alpha-defensin to monitor the treatment of culture negative periprosthetic joint infection
Rajgopal A., Dahiya V. (India)

Improper landmark registration on CT-guided robotic assisted Total Knee Arthroplasty
Roche M., Vakharia R., Leung P., Law T.Y. (USA)

A validation study of 3 methods of measuring tibial component rotation following TKA and development of a screening method
Saffi M., Young S.W., Spangehl M.J., Clarke H.D. (USA)

VISIONAIRE patient-matched cutting guides compared with conventional instrumentation: A systematic literature review and meta-analysis
Saunders C., DeClaire J., Haas S., Harwood D., Tibesku C. (UK, USA & Germany)
P91
Why revision Total Knee Arthroplasty fails? A consecutive cohort of 1170 revisions
Schmidt A., Batailler C., Badet R., Kenney R., Bonnin M., Servien E., Lustig S. (France & USA)

P92
Robotic use improves post-resection bone cuts during Total Knee Arthroplasty
Scholl L.Y., Hampp E., Alipit V., Mont M.A., Bhave A., Chen A.F. (USA)

P93
Does the use of robotic technology improve surgeon ergonomic safety during TKA?
Scholl L.Y., Alipit V., Hampp E., Chen A.F., Mont M.A., Bhave A. (USA)

P94
What factors influence surgeon cervical posture and perceived workload during TKA?
Scholl L.Y., Kolisek F., Chen A.F., Bhave A., Freedhand A., Alipit V., Hampp E., Mont M.A. (USA)

P95
LIPO-AMIC adipose tissue engineered enhanced translational technique: Mid-term results for treatment in the knee defects
Sciarretta F.V. (Italy)

P96
Integrating a cadaveric knee simulator in orthopaedic training and education

P97
Trivector arthrotomy for TKR - A “gateway” for all knees
Shah A. (India)

P98
Measurement of posterior condylar offset ratio in anterior and posterior referencing Total Knee Arthroplasty
Shetty A.V., Kangokar S.N., Ahammed I. (India)

P99
How should we tension the ligaments in flexion in order to restore the natural mediolateral laxity of the knee after TKA?
Smeets K., Bellemans J. (Belgium)

P100
Virtual reconstruction of the posterior cruciate ligament for mechanical testing of the knee

P101
Subjective and functional outcome scores of Total Knee Arthroplasty with and without tourniquet - A comparative study
Stahnke J.T., Shi S., Sharpe K.P. (USA)

P102
What is the optimal protocol to decontaminate a dropped custom polyethylene component in TKA?
Swenson R.D., Clarke H.D., Schwartz A.J. (USA)
P103
Laminar flow does not affect risk of prosthetic joint infection after primary total knee replacement in Asian patients
Teo B.J.X., Phua K.S.J., Teo S.J., Woo Y.L., Yeo W., Chong H.C., Tan A.H.C. (Singapore)

P104
Preoperative fixed flexion deformity as a contributing factor to poorer clinical outcomes following knee arthroplasty
To K., Chisari E., Yaghmour K., Khan W. (UK)

P105
Mismatched femoral and tibial prostheses component sizes results in a poorer outcome at one year compared to equally sized components
To K., Chisari E., Yaghmour K., Khan W. (UK)

P106
The reliability of standard anteroposterior knee radiographs on the assessment of tibial prosthesis alignment following primary Total Knee Arthroplasty
To K., Chisari E., Yaghmour K., Khan W. (UK)

P107
Fast track surgery in knee replacement: An Italian experience
Trotti C., Spezia M., Ravazzani C., Campi A., Albizzati E., Carducci M. (Italy)

P108
Computational analysis of primary fixation of press-fit tibial components
van de Groes S.A.W., Anijs T., Cruz Saldivar M., Verdonschot N., Janssen D. (The Netherlands)

P109
The influence of femoral component sizing on patient reported outcomes
Van Onsem S., Verstraete M., Van Der Straeten C., Victor J. (Belgium)

P110
More individualized coronal alignment targets might increase the patient satisfaction levels
Van Onsem S., Van de Kelft A-S., Van Der Straeten C., Victor J. (Belgium)

P111
A holistic approach to optimize the pain management strategy after TKA: A prospective observational report
Van Overschelde P., Kalmar A. (Belgium)

P112
Analgesic efficacy of postoperative patient-controlled sublingual sufentanil intake after Total Knee Arthroplasty
Van Overschelde P., Vanoverschelde H., Van Der Vekens N., Kalmar A.F. (Belgium)

P113
Long term outcome after revision TKA: A prospective evaluation of 129 patients with 7.5-year follow-up
P114
Survival and functional outcome of high tibial osteotomy for medial knee osteoarthritis: A 10 to 20 year cohort study
van Wulfften Palthe A.F.Y., Clement N.D., Temmerman O.P.P., Burger B.J. (The Netherlands & UK)

P115
No correlation between coronal alignment and clinical outcomes in PF arthroplasty
Vasta S., Rosi M., Papalia R., Adravanti P. (Italy)

P116
Risk and timing of total knee replacement after knee fracture: A population-based, matched case-comparison-cohort study
Vestergaard V., Pedersen B.A., Hare K., Kallemose T., Schröder H., Troelsen A. (Denmark)

P117
Do rotational movements caused by simulated golf swing affect polyethylene wear after Total Knee Arthroplasty?
Wagner T., Khiopas A., Longaray J., Herrera L., Higuera C.A., Molloy R. (USA)

P118
Rotation in total knee replacement – Are we accurate?
Walter B., Brighton R., Jacobs H., Drummond R., Marsden Jones D. (Australia & South Africa)

P119
Sagittal stability and implant design affect patient reported outcomes in Total Knee Arthroplasty
Walter B., Jacobs H., Jones C., Talbot S., Brighton S. (Australia & South Africa)

P120
Final results of a feasibility study of a PROMIS®-based digital platform for collecting post-TKA patient-reported outcomes
Waters T., Ries M., Datta G., Davis E., Nathwani D., Sutton P., Kamali A., McNamara I.

P121
Cemented tibial fixation in revision knee arthroplasty
Waterson H., Merchant H., Rey D., Toms A. (UK)

P122
Improved infection control and less surgical interventions after the introduction of a multidisciplinary approach and strict surgical regime for 2-stage revision in infected Total Knee Arthroplasty
Willems J.H., Burger B.J., Keijser L.C.M. (The Netherlands)

P123
On the relationship between compartmental loads and gap distance in the coronal plane during Total Knee Arthroplasty (TKA)
Wirekoh J.W., Parody, N.C., Meere, P.A. (USA)

P124
Does surgeon preference and patient selection affect the outcome following single-stage revision surgery?
Yaghmour K.M., Chisari E., Khan W.S. (UK & Italy)

P125
Efficacy of different dose of Tramadol hydrochloride/acetaminophen combination and non-steroidal anti-inflammatory drug for the treatment of pain following Total Knee Arthroplasty
Yo H., Ohashi H., Ikawa T., Minami Y., Kose Y. (Japan)
P126
A CT alignment measurement protocol for computer-guided Total Knee Arthroplasty
Zhang J., Bhowmik-Stoker M., Otto J., Paramasivam M., Persohn S., Territo P. (USA)

P127
OPSITE Post-op visible wound dressings compared to standard therapy in the treatment of surgical incisions
Zhou S., Gilchrist B. (UK)
